Over the last 20 years, it has been Tongaat Hulett Property's goal to transform agricultural land into purpose-made property opportunities in various sectors, that both stimulates the economy and creates jobs, builds inclusive communities and makes property ownership for all South Africans possible. It gives me great pleasure to invite you to be part of a Property Webinar where myself and a panel of exceptional industry leaders will be sharing insight into how you can make your property investment more achievable.

This Property Webinar will be answering questions such as: How does one bridge the historic knowledge gap? Can anyone invest in property? What subsidies and grants are out there for various income levels? Is inclusionary housing an achievable concept? How does one increase the supply of more secure, cost-effective products? What are the minimum requirements for someone to get a home loan? How do you secure the right opportunities?
